

Subject: non-animal testing

Date: Thursday, May 31, 2007 2:01 PM

To whom it may concern:

I dont understand why internationally accepted alternatives to animal testing have not been approved by your committee. Why is the United States so far behind the times with non-animal testing? There are humane alternatives available- that are more accurate, and other countries are using these methods. I am disgusted at how many animals are tortured and killed every year with my tax money. I do not approve of unnecessary animal testing. Please review and accept these validated methods.

Thank you

Monica Ferroe
